

THE NEW WAVE IN SUSTAINABLE WATER TREATMENT

WHO WE ARE:

- Founded in 2000
- Engaged in design, manufacturing, export and supply of a comprehensive range of industrial water treatment plants.
- 1500+ clients worldwide including some big OEM's as well as Project execution companies.
- We have two state of the art, full fledged manufacturing facilities at Bhosari MIDC in Pune, India.
- A team of highly qualified engineers and professionals with a common goal of providing Water Solutions Pure, Simple & Complete.

Marcuras Guarantees:

97% UP-TIME for Plant Operation-

Or get FREE SERVICE for TWELVE MONTHS.

We use high quality reliable components. We configure our designs and maintenance programs for maximizing UP-TIME. If you operate and maintain the plant and log books according to the guidelines given from time to time, there is no reason why the plant should break-down.

Zero Leak Plant-

Any leaking component will be replaced or attended FREE of COST.

We use good quality components that ensure rigidity. Piping supports and routing is carefully done to avoid any stresses that may cause leakage.

Lowest Dependence on Marcuras-

We thoroughly train your operators with CLASS-ROOM and ON-SITE TRAINING programs. We provide training to your operators free of cost at our works as per your convenience, within or outside warranty period. We extend all support to empower your operators to run and maintain the plant in healthy condition.

Marcuras Guarantees:

Service Support Within 48 hours Across India-

Else get FREE SERVICE for TWELVE MONTHS

Your service call will be addressed within 48 hours across
India. We have associates in all regions to take care of
emergencies. If the issue cannot be resolved over phone, and
if the nature of problem is explained thoroughly, our person
will reach site within 48 hours.

Delivery as committed-

For delays in delivery attributed to Marcuras, enjoy 1% DISCOUNT PER WEEK.

We have a strong, experienced and enthusiastic team of professionals to overcome any challenge and yet deliver the plant within committed delivery period.

100% Compliance With Designed Output Quality and Quantity-

We handover the plant & comply with Design Quality and Quantity commitments, provided you operate and maintain the system as per our guidelines.

State of the Art Manufacturing Facility

Quick Response & Efficient service team

Fastest deliveries in the industry

Steady growth year after year

Marcuras Advantage

Pioneering Latest Technologies

Value for Money

Goodwill earned over the last 13 years

Extensive Domain knowledge

Pretreatment

- Clarifiers & Flocculators
- High Rate Solids
 Contact Clarifier
- Tube Settler / Lamella Clarifiers

Filtration System

- Activated Carbon Filter
- Iron Removal Filter
- Dual Media Filter/ Sand Filter

Ion Exchange System

- CondensatePolishing Unit
- DM Plant & Mixed Bed Plant
- Softeners

Membrane Separation Plant

- Micro Filtration
 Plants(MF), Ultra
 Filtration Plants(UF),
 Nano Filtration
 Plants(NF)
- Reverse Osmosis Plants(RO)
- Remote MonitoredRO system

Desalination & Zero Liquid Discharge Plant

- · Zero Liquid Discharge Plant
- · Sea Water
 Desalination Plant

Effluent & Sewage Treatment Plants

- · Effluent Treatment Plants
- Sewage TreatmentPlants
